

Allergenlist

This document contains information regarding allergens.

There are a few allergens that are not noted in this document as these ingredients are not used by Gys.

This regards the following allergens:

- crustaceans
- fish
- sulphur dioxide
- molluscs
- **gluten** (people with celiac disease, please read more below!)

Kindly note that all of our dishes can always contain traces of allergens as we do not have an allergen-free kitchen.

PLEASE ALWAYS LET US KNOW IF YOU HAVE ALLERGIES!

Also if you read in this document a dish does not contain the allergens regarding your allergy, so we can take better care. We kindly ask you to not make any assumptions about ingredients and dishes but to please let us know at all times what allergy you have. We only ask this for the safety of your health.

Important info regarding gluten-free food for people with celiac disease:

Great news! At Gys, we've entirely removed gluten from our offerings, and our kitchen is now gluten-free. The bread we serve by default is gluten-free and is baked for us by [bakery Petit Four](#) from Deventer. In this bakery, no gluten are processed. Petit Four has had an official audit conducted by the Nederlandse Coeliakie Vereniging (NCV). Please let our colleagues know you if you have celiac disease.

Gys has been inspected and audited by the NCV, earning us the '[Lekker Glutenvrij](#)' certification. This certification ensures our compliance with all NCV safety standards and protocols, making our restaurant a safe dining choice for people with celiac disease. Restaurants with the 'Lekker Glutenvrij' certification are regularly inspected by the NCV and are subject to annual evaluations by an independent audit firm.
